Teacher and Informal Educator Quick Grant Proposal

The Science Education Research Foundation (SeER) is accepting teacher- and educator-submitted grant proposals for up to \$500 for the 2023-4 academic year. The performance period is Oct. 1, 2023 – Apr. 30, 2024 with extensions until July 15, 2024. Proposals should contribute to the STEM education community by using existing STEM education research in a new way or creating new research for K-12-age learners. Partnerships can be with another teacher or a researcher. If the latter, SeER may be able to recommend a researcher/scientist relevant to your topic, if requested.

Please complete this form, scan, and email your submission no later than August 31, 2023. Selected proposals will be given more instructions at that time.

Your name: _____ Email: _____ Phone: _____

Your institution/school/district: _____

Targeted grade level(s) or age(s): _____

Targeted course (if applicable): _____

Applicable standards: _____

Number of students impacted: _____

Project title: _____

Project research question(s): _____

Project goal(s): _____

Project budget: _____

How will funding be used? _____

What is different about this proposal? What is its contribution? _____

How will you measure the effectiveness of your proposal? _____

Do you have a dream, or “expert”, collaborator for this proposal? _____
